27765	DPS	Financials	Yes	Suppliers	Low	Supplier Name and Contact Tab.	The CMBL Load into CAPPS is updating the Supplier Name and Supplier Short Name to mixed character instead of all uppercase letters. The CMBL load also adds information to the Contacts tab on the Supplier Record. Both types of updates (for an already-active supplier) are causing issues by using the supplier ID on PO's. Requesting a fix to have the CMBL load not update the supplier's name and short name if the information already exists in CAPPS and to omit sending contact information from the load.	*Completed.	UAT 5/6 PRD 5/26

Turning off edit checks on Emplid & Job codes during loading TXR eliminates many issues and monthly issues that we are running into. <div>Note: The above change does not have any impact on budget check.</div>	*Completed	UAT 4/15 PRD 5/26
23560	CAPPS	Financials	Yes	Interfaces	Medium	Enhance Batch Info Msgs from TX_US_CAPPS.	Enhance Batch Info messages to convey more clearly the errors and issues encountered during match and compare processing in the USAS to CAPPS Inbound interface (TX_US_CAPPS). This is necessary to create a new report of compare errors for reconciling issues between USAS and CAPPS.	*Completed	UAT 4/15 PRD 4/28
